EDUCATION

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B.Tech., ECE	National Institute of Technology, Patna	8.63	2023-2027
Senior Secondary	Sri Chaitanya Junior College,Vijayawada	98	2021-2023
Secondary	Blooms High School,Vinukonda	99.3	2021

EXPERIENCE

- **Co[** Jan 2026 - Apr 2026(Expected)
NPTEL Winter Internship — Vinternship by VLED Lab
 - Training on Full-Stack Development (MERN Stack) Guided by Prof.Sudarshan Iyengar at VLED Lab.
 - Completed structured training in TypeScript, React, Express.js, Node.js, MongoDB.
 - Underwent hands-on case studies and real-time full-stack application development.
 - Learned API development, database connectivity, and frontend-backend integration.
 - Built mini-projects following industry-style coding practices.

PROJECTS

- **Building a Stock Trading Platform** Aug 2025 - Nov 2025
Tools:HTML, CSS, JavaScript, React, Node.js, Express.js, MongoDB, REST APIs, WebSockets 
 - Developed a full-stack stock trading platform for viewing real-time stock prices and performing simulated buy/sell operations.
 - Implemented REST APIs and WebSocket integration to fetch and update live market data, achieving smooth real-time updates.
 - Created a secure user authentication system (JWT) ensuring safe login and protected routes.
 - Applied portfolio management logic to calculate holdings, profit/loss, and transaction history, improving user insights.
- **Instacart Data Analysis and Reorder Prediction System** May 2025
Tools:Python, Pandas, NumPy, Matplotlib, Seaborn, XGBoost 
 - Analyzed over 3 million grocery orders from 200,000+ users to uncover purchase patterns, reorder trends, and demand cycles using Python, Pandas, and Matplotlib.
 - Performed Market Basket Analysis using the Apriori algorithm and identified 28 high-lift product pairs for cross-selling.
 - Engineered 30+ features across user, product, aisle, and department levels; built an XGBoost model with cost-sensitive learning and evaluated performance with ROC-AUC.
 - Optimized memory usage by 50 percentage with dtype downcasting and applied MinMax Scaling for efficient large-scale model training.

SKILLS

- **Programming Languages**:C,Java,Python,JavaScript
- **Technologies**
:HTML,CSS,JavaScript,React,Node.Js,Pandas,Numpy,Matplotlib,SQL,Excel,MLxtend(Apriori).
- **Tools**:VS code,GitHub,PostgreSQL,Excel,Jupyter NoteBook.

CERTIFICATIONS

- **Apna college, Alpha(DSA with Java)** march 2025
- **Forage, Cyber Job Simulation** Oct 2025
